

PEACE INVITATION.

Fellow Rotarians, we are taking a global Rotary PEACE message to the moon. Join US.

In mid 2025, a SpaceX Falcon Heavy rocket will lift off from Cape Canaveral, FL, USA carrying the Griffin Moon Lander and we will have a computer chip on board and your digitized club picture can be a part of it.

To participate, send a photo of your club to PicturesOnTheMoon@gmail.com.
Closing date for this Space flight is December 30th, 2024.

It will take only a couple of minutes but the memory will last a lifetime, your picture will be on the moon forever and our messages from around the world calling for PEACE, will speak volumes.

There is no cost to your club to participate.

Your club is one of 1000 clubs from countries all over the world initially being invited, but participation is not limited.

Please share this message with other Rotary Clubs in your area.

Photos must be downloaded to our email address PicturesOnTheMoon@gmail.com by no later than December 30th, 2024, to comply with NASA requirements for all items to be included in the Griffin Moon Lander.

Please visit our website: **www.YourClubOnTheMoon.com** now for more details and updates on launch information.

Regards

DG Sony LaBosco
District Governor Rotary District 6980
